SHOW SUPPORT FOLDER

The Events Biosecurity Journey

Recording livestock movements is good for everyone. By working together, we can build a stronger and more productive and profitable for the future.

Preparation

Before taking livestock to an event, it is critical for livestock to be ready and traceable for safe transport and minimise biosecurity risks. Event staff develop emergency action plans and disperse livestock health requirements to participating producers.

1

2

Movement

When livestock are ready to be moved, livestock are transported with biosecurity protocols and detailed records ensure traceability.
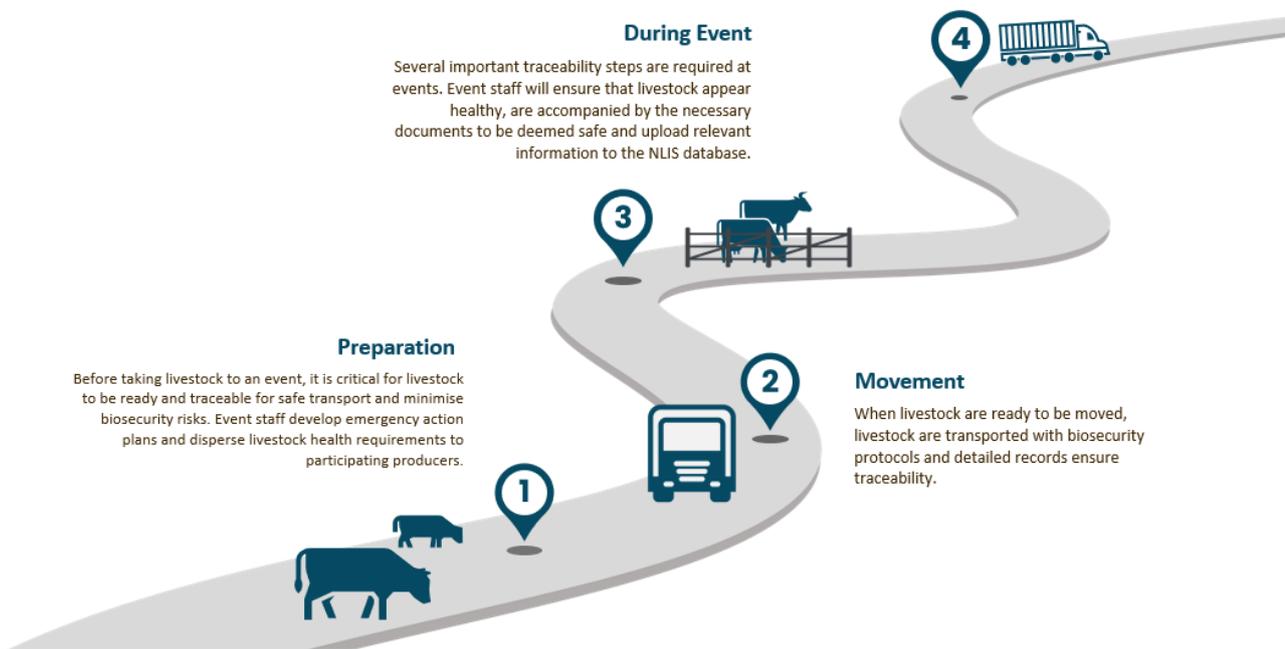

During Event

Several important traceability steps are required at events. Event staff will ensure that livestock appear healthy, are accompanied by the necessary documents to be deemed safe and upload relevant information to the NLIS database.

3

Post Event

Livestock will either be moved from the event to an abattoir, new property, or back to the home property. This process also includes important traceability and biosecurity steps and the crucial involvement of agents.

4

PROTECT OUR PRODUCTION

Steward Checklist

Thank you for your commitment to our show! Accurate livestock traceability helps **Protect our Production** against disease, maintains exports, and improves our international reputation.

Showground Property Identification Code and National Livestock Identification System Account

Obtain and record the showground Property Identification Code and registered for a National Livestock Identification System **Sporting Event** account.

PIC Number: _____   Account Number: _____

Emergency Animal Disease Action Plan (EADP)

☐ Confirm the show society has completed the Emergency Animal Disease Action Plan from AgShows NSW.

Show Entrant Requirements, Forms, and Waivers

☐ Provide the timings for livestock bump-ins to show entrants.

☐ Confirm all show entrants have a completed show entry form.

☐ Confirm all show entrants have a completed AgShows NSW Waiver.

NLIS Device Check

☐ Check livestock for approved National Livestock Identification System devices, ear tags, or swine brands.

☐ Report any missing or damaged devices to the Chief Steward and responsible show committee member.

Number of missing/damaged devices reported: _____

Biosecurity Concerns

☐ Report any biosecurity or traceability concerns to the responsible show committee member and Chief Steward.

Movement Documents and Health Declarations Before Unloading livestock

☐ Confirm and collect from all show entrants have provided a completed National Vendor Declaration or Transported Stock Statement.

☐ Confirm and collect show entrants have provided a completed Animal Health Declaration.

Record Information

☐ Record correct PIC code for each property the livestock came from on the sighted livestock record sheet (Livestock Record sheet is available as part of this package).

☐ Confirm travel destinations for animals after the show and ensure appropriate documents are prepared.

PR⬡TECT OUR PR⬡DUCTION

Show Committee Member Checklist

Thank you for your commitment to our show! Accurate livestock traceability helps **Protect our Production** against disease, maintains exports, and improves our international reputation.

National Vendor Declaration (NVD)/Transported Stock Statement (TSS) & Animal Health Declarations:

☐ Collect completed National Vendor Declarations (NVD) or Transported Stock Statements (TSS) before unloading livestock.

☐ Collect completed Animal Health Declarations before unloading livestock.

National Livestock Identification System Devices:

☐ Check all livestock for approved NLIS devices, ear tags, or swine brands (before unloading if possible).

Record Keeping on the Sighted Livestock Record Sheet:

☐ Ensure you have a copy of the sighted livestock record sheet.

☐ Identify and record all necessary information for incoming animals, including:

   - Property Identification Code (PIC)

   - Livestock species and description

   - Number of livestock

   - Device numbers

Record Livestock Movements

☐ Record all incoming and outgoing livestock on the sighted livestock record sheet.

☐ Provide Records to Chief Steward

Biosecurity Protocols:

☐ Read Biosecurity Protocols and the show's Emergency Animal Disease Action Plan.

Monitor Livestock Movements

☐ Monitor the movement of all cattle, sheep, goats, and pigs onto and from the showgrounds.

Report Concerns

☐ Report any traceability or biosecurity compliance concerns to event organisers or the responsible Show Committee member.

PROTECT OUR PRODUCTION

Producer Checklist

Thank you for your commitment to our show! Accurate livestock traceability helps **Protect our Production** against disease, maintains exports, and improves our international reputation.

Know your Property Identification Code

☐ You need a Property Identification Code to enter livestock into a show.

Complete Entry Forms

☐ Fill out the relevant show entry form and Agricultural Shows NSW Waiver.

☐ Ensure you have the results of any necessary tests and completed vaccinations if required.

☐ Ask your Show Secretary for the showground Property Identification Code. Yes, shows have one too.

Check livestock for National Livestock Identification System Devices

☐ Ensure all livestock have an approved National Livestock Identification System device, ear tag, or swine brand.

☐ Replace any damaged or lost devices.

☐ Order new devices or ear tags and an approved applicator if needed.

Prepare Movement Records by either

☐ Completing Livestock Production Assurance Accreditation and ordering a National Vendor Declaration book **OR**

☐ Completing Livestock Production Assurance Accreditation and get access to electronic National Vendor Declaration online or use the Electronic National Vendor Declaration application OR

☐ Get a Transported Stock Statement for both the forward and return journeys.

Complete Animal Health Declaration

☐ Ensure livestock have the relevant Animal Health Declaration.

Submit Paperwork

☐ Present all required paperwork, including your movement documents, to the steward responsible before unloading livestock.

Follow Show Requirements

☐ Comply with all timings and requirements for bump-in, unloading, and exhibiting.

End of the show

☐ Ensure you have a movement document when transporting your animals.

☐ Your Show society will update the NLIS database with a sighted livestock record list, helping ensure the integrity of our agricultural industry.

Part B To be completed by the person in charge of the cattle while they are being moved.
Completion of this part is optional in SA and VIC.

Movement commenced: _____ / _____ /20   [:   ] (am/pm)

Vehicle registration number(s)*: _____

I _____
FULL NAME   am the person in charge of the cattle during the movement and declare all the information in Part B is true and correct.

Signature _____   Date _____ / _____ /20   Tel no. _____

*When more than one truck is carrying the cattle, other vehicle registration numbers are to be recorded.

LPA

The LPA NVD is your declaration and guarantee to buyers.

Make sure it is complete and correct, so you can stand by what you sell.

Who is responsible for completing the LPA NVD?
Part A: The cattle owner or the person responsible for the husbandry of the cattle.
Part B: The livestock carrier.

Who keeps the copies?
Top sheet: (White) goes with the cattle to the purchaser.
Middle sheet: (Green) goes to the carrier.
Bottom sheet: (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the LPA NVD?
1 Go to www.integritysystems.com.au/nvd or
2 Phone 1800 683 111

Where do I go for more information?
Go to www.integritysystems.com.au/lpa

Do not amend the pre-printed PIC. This NVD can ONLY be used for cattle located on this PIC.

Complete all details about the livestock. Use a separate line for each different group, split by breed and sex.

Contact receiver, agent or saleyards to find out correct destination PIC. The consignee can be different to the destination. When selling at a salyards the consignee will be the agent and the destination (and PIC) will be the saleyards.

Only tick Yes or No in questions 1 to 8. Do not tick both.
If some of the consignment require you to tick Yes then this applies to the entire consignment.

Integrity Systems
red meat customer assurance

The LPA NVD is your declaration and guarantee to buyers.

Make sure it is complete and correct, so you can stand by what you sell.

Who is responsible for completing the LPA NVD?

Part A: The sheep or lambs owner or the person responsible for the husbandry of the sheep or lambs.

Part B: The livestock carrier.

Who keeps the copies?
Top sheet: (White) goes with the sheep/lambs to the purchaser. OR SHOW
Middle sheet: (Green) goes to the carrier.
Bottom sheet: (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the LPA NVD?
1 Go to www.integritysystems.com.au/nvd or
2 Phone 1800 683 111

Where do I go for more information?
Go to www.integritysystems.com.au/lpa

Do not amend the **pre-printed PIC.** This NVD can ONLY be used for sheep/lambs located on this PIC.

Complete all details about the livestock. Use a separate line for each different group, split by breed and sex.

Complete this section if any of the livestock do NOT have an electronic NLIS tag. Choose either A or B in the section below and fill in the required details.

Enter number of livestock tagged with electronic NLIS tags (if all have them, PIC or WA brand details are not needed above).

Contact receiver, agent or saleyards to find out correct destination PIC.
The consignee can be different to the destination. When selling at a saleyards the consignee will be the agent and the destination (and PIC) will be the saleyards.

Vehicle registration number(s)*: ....

I .... am the person in charge of the goats during the movement and declare all the information in Part B is true and correct.
FULL NAME

Signature ....   Date .... / /20   Tel no. ....

*When more than one truck is carrying the goats, other vehicle registration numbers are to be recorded.

The LPA NVD is your declaration and guarantee to buyers.

Make sure it is complete and correct, so you can stand by what you sell.

Who is responsible for completing the LPA NVD?
Part A: The goat owner or the person responsible for the husbandry of the goats.
Part B: The livestock carrier.

Who keeps the copies?
Top sheet: (White) goes with the goats to the purchaser.
Middle sheet: (Green) goes to the carrier.
Bottom sheet: (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the LPA NVD?
1 Go to www.integritysystems.com.au/nvd or
2 Phone 1800 683 111

Where do I go for more information?
Go to www.integritysystems.com.au/lpa

Do not amend the pre-printed PIC.
This NVD can ONLY be used for goats located on this PIC.

Complete all details about the livestock.
Use a separate line for each different group, split by breed and sex.

List all other PIC numbers on the tags of goats in this consignment.

Contact receiver, agent or saleyards to find out correct destination PIC.
The consignee can be different to the destination.
When selling at a salyards the consignee will be the agent and the destination (and PIC) will be the saleyards.

NLIS how-to: Move livestock onto / off a PIC – file upload

Introduction

Following a physical movement of livestock, completing a transfer in the NLIS database ensures that the database can trace the location of every animal throughout its life.

This is a legislative requirement in each state and territory. Each jurisdiction is responsible for enforcing the regulatory requirements for NLIS, specifying how and when livestock transfers within the NLIS database must be completed.

This how-to demonstrates the process to transfer electronically tagged livestock onto or off a PIC by uploading a file to the database after a physical movement of stock has occurred.

What is a movement?

Completing a movement on the NLIS database means transferring stock from one PIC to another PIC to reflect the physical location of each animal.

Who updates the NLIS database?

The person responsible for updating the NLIS database varies depending on the situation:

- If livestock are bought, sold or moved through a saleyard, the livestock movement must be recorded by the saleyard.
- For sales or movements that do not take place via a saleyard, the buyer/receiver of the livestock must record the livestock movement.

- The vendor/sender of the livestock is not obligated to record the movement off their property, although they may do so. ISC recommends checking that the movement has occurred to ensure your NLIS records are up-to-date; this includes livestock being sent to abattoirs or saleyards.
- Abattoirs must record movements for all livestock they receive.

When do producers need to update the NLIS database?

A movement needs to be recorded on the NLIS database by a producer when:

- You have purchased animals privately and need to complete the transfer as the receiver of the livestock.
- You own more than one property with different PIC numbers and need to transfer livestock between your own PICs.
- You have livestock returning from an agistment PIC, or you are sending livestock away on agistment and need to complete the transfer because the receiver is unable to do so.
- You have sold livestock privately and you want to complete the transfer because the receiver is unable to do so.
- You have completed a PIC reconciliation and identified livestock that are physically on your property but are not on your NLIS account. You will need to transfer these animals to your PIC.

Before you start:

This 'file upload' method is ideal if you have a few hundred or more livestock to transfer or if you have a Microsoft Excel .csv file prepared.

Alternatively, you may like to use the **How-to: Move onto/ off a PIC – type in details** method if your transfer consists of less than a few hundred NLIS ID or RFID details that can be pasted or typed in. (Pages 3-5)

- **Prepare** the .csv file to contain the NLIS ID or RFID details of the livestock that have been moved, details of the PICs you are transferring between, the NVD number as well as the date the stock movement occurred.

Your .csv file needs five columns of data as shown below.

	NLIS ID / RFID	Source PIC	Destination PIC	NVD / Waybill	Date moved
	A	**B**	**C**	**D**	**E**
1	999 000025884234	QIZZ0000	QFZZ4444	40473164	13/07/2021
2	999 000025884698	QIZZ0000	QFZZ4444	40473164	13/07/2021
3	999 000031249117	QIZZ0000	QFZZ4444	40473164	13/07/2021
4					

- **Log-in** to the NLIS database at www.nlis.com.au with your username and password.

*QUICK TIP Collating the NLIS ID or RFID details into a .csv file can be achieved by scanning or recording all devices before they leave your property or as you receive them. Simply enter the data into the remaining columns manually.

NLIS how-to: Move livestock onto / off a PIC – type in details

Introduction

Following a physical movement of livestock, completing a transfer in the NLIS database ensures that the database can trace the location of every animal throughout its life.

This is a legislative requirement in each state and territory. Each jurisdiction is responsible for enforcing the regulatory requirements for NLIS, specifying how and when livestock transfers within the NLIS database must be completed.

This How-to demonstrates the process to transfer electronically tagged livestock onto or off a PIC by typing in the details after a physical movement of stock has occurred.

What is a movement?

Completing a movement on the NLIS database means transferring stock from one PIC to another PIC to reflect the physical location of each animal.

Who updates the NLIS database?

The person responsible for updating the NLIS database varies depending on the situation:

- If livestock are bought, sold or moved through a saleyard, the livestock movement must be recorded by the saleyard.
- For sales or movements that do not take place via a saleyard, the buyer/receiver of the livestock must record the livestock movement.

- The vendor/sender of the livestock is not obligated to record the movement off their property, although they may do so. ISC recommends checking that the movement has occurred to ensure your NLIS records are up-to-date; this includes livestock being sent to abattoirs or saleyards.
- Abattoirs must record movements for all livestock they receive.

When do producers need to update the NLIS database?

A movement needs to be recorded on the NLIS database by a producer when:

- You have purchased animals privately and need to complete the transfer as the receiver of the livestock.
- You own more than one property with different PIC numbers and need to transfer livestock between your own PICs.
- You have sold livestock privately and you want to complete the transfer because the receiver is unable to do so.
- You have completed a PIC reconciliation and identified livestock that are physically on your property but are not on your NLIS account. You will need to transfer these animals to your PIC.

Before you start:

- **Gather** the NLIS ID or RFID details of the livestock that have been moved and where you wish to record a transfer on the database. This 'type in details' method is ideal for small lists of livestock. If you have a list on your computer, you can copy and paste the list.

  Alternatively, you may like to use the **How-to: Move onto/off a PIC - file upload** method.

  *QUICK TIP
  Ensure the right animals are moved by reading the tags with a reader either before they leave your property or as you receive them. This will reduce database errors due to incorrect tag numbers captured visually.

- **Locate** details of the PICs you are transferring between, the date the stock movement occurred and the NVD number. Inclusion of the NVD number is recommended by ISC.

- **Log-in** to the NLIS database at www.nlis.com.au with your username and password.

  *QUICK TIP
  A myMLA account can provide access to your NLIS and LPA accounts with just one log-in. Link your accounts today.

999 999999990009
999 999999990008
999 999999990007

◂ Back   ▸ Send

STEP 4: The database will provide a receipt on-screen. It's recommended to record the Upload ID (or to print this receipt for reference) and click 'View my transaction' history to confirm the status of your transaction.

QUICK TIP

To ensure the transfer was received by database, click 'View my transaction history' to check the status of your 'Upload ID' is marked as Complete. If another status is shown, you will need to read the generated email for specific details about the outcome. These other status notes may be:
- Warning: the transfer is complete but a tag or tags were marked with a message that you will need to investigate / review.
- Error: One or more tags were not able to be moved and need your review / investigation.
- Failure: Technical issues occurred with the database and the movement was not completed.
- Bad Format: There were errors in the preparation of the .csv Microsoft excel file. Review and or contact ISC Customer Service on 1800 683 111.

LPA   NLIS

NLIS how-to: Move livestock onto / off a PIC – type in details (sheep and goat)

Following a physical movement of livestock, completing a transfer in the NLIS database ensures that the database can trace the location of every animal throughout its life.

This is a legislative requirement in each state and territory. From 1 January 2025, all sheep and farmed goats born on or after this date must be tagged with an eID device before leaving your property. Receivers of livestock need to record transfers in the NLIS database within 48 hours of the movement occurring.

This How-to demonstrates the process to transfer sheep and goats which are both electronically tagged (individual movement) and visually tagged (mob-based movement) onto or off a PIC by typing in the details after a physical movement has occurred.

What is a movement?

Completing a movement on the NLIS database means transferring stock from one PIC to another PIC to reflect the physical location of each animal.

Who updates the NLIS database?

The person responsible for updating the NLIS database varies depending on the situation:

- If livestock are bought, sold or moved through a saleyard, the livestock movement must be recorded by the saleyard.

- For sales or movements that do not take place via a saleyard, the buyer/receiver of the livestock must record the livestock movement.

- The vendor/sender of the livestock is **not** obligated to record the movement off their property, although they may do so. ISC recommends checking that the movement has occurred to ensure your NLIS records are up-to-date; this includes livestock being sent to abattoirs or saleyards.

- Abattoirs must record movements for all livestock they receive.

When do producers need to update the NLIS database?

A movement needs to be recorded when:

- You have purchased animals privately and need to complete the transfer as the receiver of the livestock.

- You own more than one property with different PIC numbers and need to transfer livestock between your own PICs.

- You have sold livestock privately and want to complete the transfer because the receiver is unable to do so.

- You have completed a PIC reconciliation and identified livestock that are physically on your property but are not on your PIC in the NLIS database. You will need to transfer these animals to your PIC.

Before you start:

- Gather the NLIS ID or RFID details of the electronically tagged livestock that have been moved. This 'type in details' method is ideal for small lists of livestock. If you have a list on your computer, you can copy and paste it.
- Alternatively, you may like to use the **How-to: Move onto/off a PIC - file upload** method.
- Locate details of the PICs you are transferring between,

the date the stock movement occurred and the NVD number.
- Log-in to the NLIS database via your myMLA account at mla.com.au/myMLA and navigate to NLIS from the dashboard.

STEP 1: Once logged in, select the species you are working with. In the dropdown, under the 'notify the database of' section, select the action 'Livestock moved **off** my property (Sheep/Goat/SA Camelids – individual)' or 'Livestock moved **onto** my property (Sheep/Goat/SA Camelids – individual)'. Click 'Go'.

Which livestock do you want to work with?

I want to work with Sheep (individual)

What do you want to do today?

I want to (Please select)

(Please select)
Account management
  Change my types of livestock
  View/edit my account details
Notify the database of:
  Device status
  Livestock moved off my property
  Livestock moved off my property (Sheep/Goat/SA Camelids - individual)
  Livestock moved onto my property
  Livestock moved onto my property (Sheep/Goat/SA Camelids - individual)
  Livestock that have died on property
  PIC reconciliation
  Replaced tags
  Transfer correction
Reports
  Audit property (producers and regulators)
  Beast enquiries
  Carcase feedback query
  Search the PIC register
  View devices on my property

(Please select)

▶ Go

STEP 2: Click 'type in the details'.

Livestock moved onto my property (Sheep/Goat/SA Camelids - individual) - Sheep (individual)

Choose your method

How would you like to record your information?

Click on the button to choose the option you want.

I want to ▶ type in the details manually on-screen.

I want to ▶ upload a file I have created on my computer.

STEP 3: In the first box, enter the tag numbers of the livestock to move. You can copy and paste these from an existing document saved to your computer or type each NLIS ID or RFID number in manually and hit enter. We recommend using the larger box when completing this step.

Livestock moved onto my property (Sheep/Goat/SA Camelids - individual) - Sheep (individual)

Enter the details   Step 1 2 3

1 Enter the livestock you want to move

Type the visual number (NLISID) or electronic number (RFID) in the box below. Press the 'Enter' key ↵ after each device number.

Page 2 of 4

STEP 4: Complete the other fields:

- the destination PIC is your property's PIC
- the PIC the livestock have come from
- the NVD or waybill number
- the date the livestock were moved

STEP 5: Then enter the number of head. The headcount can be different to the number of tags entered as not all animals need to be electronically identified from 1 January 2025. For example, if you receive 20 head but only 10 of them have been tagged electronically, you will enter the 10 tag numbers but specify that the number of head received was 20.

Once all the fields are complete, click 'Continue'.

STEP 6: Confirm all details you have entered are correct and then submit the information to the database by clicking 'Send'.

STEP 7: The database will provide a receipt on-screen. It's recommended to record the Upload ID (or to print this receipt for reference). There are two associated Upload IDs representing the two movements to account for the individual transfer of the electronically tagged livestock and the mob-based transfer for the livestock with a visual tag.

Click 'View my transaction' history to confirm the status of your transaction.

STEP 8: To ensure the transfer was received and processed by the database, click 'View my transaction history' to check that the status of your Upload ID is marked as Complete. If another status is shown, you can click on the 'Upload status' or read the auto-generated email for specific details about the outcome.

View my transaction history

Result				Step 1 2

Below is a list of transactions that have been performed by user **2PRDAA4P** between **27/11/2024** and **28/11/2024**.

If you have an Upload ID, you can see the contents by clicking ▶file viewer or see the upload status by clicking ▶status viewer .

Other status notes may be:

- Warning: the transfer is complete but a tag or tags were marked with a message that you will need to investigate / review.
- Error: One or more tags were not able to be moved and need your review / investigation.
- Failure: Technical issues occurred with the database and the movement was not completed.
